### **RULING ON ENTITLEMENT**<sup>1</sup>

On August 16, 2022, Maryann Seguritan filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that she suffered left shoulder injuries related to vaccine administration (SIRVA) resulting from an influenza (flu) vaccination she received on September 20, 2019. Petition at 1. Petitioner further alleges that the vaccine was administered within the United States, her symptoms lasted more than six months, and neither Petitioner, nor any other party, has ever filed any action or received compensation in the form of an award or settlement for Petitioner’s vaccine-related injury. Petition at 1, 3. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On August 8, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, it is Respondent's position that "[P]etitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI") for SIRVA." *Id.* at 4. Respondent further agrees that "the records show that petitioner timely filed her case, that she received the flu vaccine in the United States, and that she satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration". *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
